II

Formerly farmhouse and hind's cottage, now one house. 1835, dated above door. Dressed stone with brick left part, Welsh slate roof. 2 storeys, 3 bays with lower 1-bay cottage to right and single-storey sections on each side.

House: 6-panel door in raised surround with moulded edge and date carved in relief on lintel. On ground floor original sashes with intermediate glazing bars removed. 16-pane sashes on 1st floor. Cottage has C20 4-pane sashes in raised surrounds. Stone brackets below eaves. Gabled roof with flat coping and banded end stacks.

To right a 2-bay section with 8-Pane Yorkshire sashes. To left the 1-bay brick section in English Garden Wall Bond, with half-shuttered windows. (Next to Waggon Inn)

NZ 17 NW and NZ 17 NE      PONTELAND      **BENRIDGE HALL**

11/450 and 12/450      **Benridge Hall**      28.4.59      GV      II

House. Mid C18 and later. Brick facade in Flemish bond. Other walls in English Garden Wall Bond. One rear facade ashlar. Welsh slate roof. Front block with parallel range to rear and left, and double-span wing projecting to rear forming an overall L-plan. 2 storeys.

South front is in 2 sections. Main block 5 bays. 3 steps up to central Venetian doorway with Tuscan columns, set in blank arch. 12- and 4-pane sashes with flat arches and projecting sills. Hipped roof with corniced ridge stack. Lower block recessed to left is contiguous with rear span; irregular fenestration including a round-headed window with radial glazing bars.

East front, on right return: lower 4-bay facade. In 2nd bay a 6-panel door and overlight with radial glazing bars, in architrave with cornice on fluted brackets.

Rear: a 5-bay facade in C18 ashlar.

Former cottage, now a garage, attached to rear has tumbled-in brickwork in the gable.

Interior has mid C18 open-well stair with turned balusters and panelled dado; 6-panel doors and shutters.

Benridge Hall south front

12/286 Gateway approx 440 yds east of Benridge Hall II Gatepiers, gate and screen walls. Late C18 or early C19.

Ashlar. Gate iron. Round corniced piers with fluted necking and domed caps, flanked by quadrant walls ending in lower piers with domed caps.

NZ 17 NE      PONTELAND      BENRIDGE HALL

12/284 **Coach House** approx 30 28.4.69 yards north-east of Benridge Hall GV II

Coach house. Late C18. Rendered brick with ashlar quoins. Welsh slate roof. 2 elliptical arches with boarded double doors and roundel over. Stepped gable above.

NZ 17 NE      PONTELAND BENRIDGE HALL 12/285 28.4.69 **Benridge Hall Cottage** II

Cottage. 1803 dated over door. Brick in English Garden Wall bond. Welsh slate roof. 2-storey, 3 bay cottage with attached cartshed which has now (mid C20) been incorporated into house.

Original cottage, to left, has central half-glazed door in stone surround with scalloped decoration in the lintel and date and initials W D 1803. Flanking 16-pane casements. On 1st floor-3 small ogee-headed windows with Y-tracery. To right 3 blocked segmental arches now with C20 12-pane windows. Hipped roof with old brick ridge stack.

NZ 17 NE  
cartshed

PONTELAND  
II

BERWICK HILL 12/287 South-East Farmhouse and cottage with attached

House and cottage. c.1840 with C18 core. Ashlar with Welsh slate roof. T-plan house with L-plan cottage attached to right.

House: 2 storeys, 3 bays. Central boarded and battened door with small-paned overhead. Renewed 16-pane sash windows. Gabled roof with corniced end stacks.

Cottage: 2 windows with 4-panel door to left and 4 renewed 16-pane sashes. Gabled roof with corniced right end stack.

Cartshed attached on right: single storey, 5 bays with square piers and lintels.

Rear wing of house has older squared masonry and C18 kneelers. Outshut has three 12-pane Yorkshire sashes and a cartouche dated 1723.

*South East Farmhouse with central boarded door and small-paned overhead*

*Cottage: 2 windows with 4-panel door to left & 4 renewed 16 pane sashes*

*Cart shed attached on right, single storey, 5 bays with square piers and lintels*

*Cartouche on north wall MWR 1956 = Matthew White Ridley      Second cartouche dated 1723*

*Similar cartouches on West End Farm, Berwick Hill, dated 1957 and 1723, for comparison*

**Smithy and attached house**, now used as agricultural machinery shop. 1822. Dressed stone. Smithy has C20 tiled roof, house has Welsh slate roof.

Smithy (No. 3) single storey, 3 bays with boarded door and lintel carved with date in fine lettering. Flanking Blacksmith's-type windows. Gabled roof.

House: 2 storeys, 2 bays with panelled door and 4-pane sashes. Gabled roof with banded end stacks.

A rare example of a dated smithy.

The Smithy dated 1822 now a Bistro and the adjoining house is part Motel 2007

NZ 16 NW      PONTELAND      **BIRNEY HALL** 20/288 Birney Hall GV II

House. C17 or early C18 reset datestone of 1701 with initials R & ME possibly for Errington, above centre bay; altered and extended 1907. Ashlar with Welsh slate roof. Tudor style. Original double-span building to left "2½/2 storeys, 3 bays. Openings mainly of 1907. Central canted 2-storey bay has Tudor-arched doorway with hoodmould. 5-light mullioned window over. Flanking 4-light mullioned-and-transomed windows on ground floor, 3-light above. 3 tall original gabled dormers have diamond-paned casements with wedge lintels grooved in imitation of voussoirs. Steeply-pitched gabled roof with C18 kneelers, flat coping and corniced end stacks.

2-bay extension to right of 1907 in similar style.      Good interior of 1907.

Rear span has C18 masonry, but detail of 1907 in Arts and Crafts style. Large 2-storey wood bow window and projecting wing on left with 3 attached Good interior of 1907. Tuscan columns supporting jettied first floor.

*South side and main entrance of Birney Hall*

NZ 16 NW PONTELAND BIRNEY HALL 20/290 Gateway approx 50 yards south of Birney Hall GV II

Gate, gatepiers, walls and railings. Early C18. Rusticated piers with pulvinated friezes, cornices, and ball finials on cushion bases. Low quadrant walls topped by railings with top rail and pointed standards ending in lower, rusticated, corniced piers with obelisk finials. Double gates with dog rail, arched top rail and spearhead standards.

*The gate and gate piers with flanking walls and decoration leading to a long tree-lined drive to the Hall*

NZ 17 NW and NZ 17 NE    PONTELAND    **BENRIDGE HALL**

11/450 and 12/450    **Benridge Hall**    28.4.59    GV    II

House. Mid C18 and later. Brick facade in Flemish bond. Other walls in English Garden Wall Bond. One rear facade ashlar. Welsh slate roof. Front block with parallel range to rear and left, and double-span wing projecting to rear forming an overall L-plan. 2 storeys.

South front is in 2 sections. Main block 5 bays. 3 steps up to central Venetian doorway with Tuscan columns, set in blank arch. 12- and 4-pane sashes with flat arches and projecting sills. Hipped roof with corniced ridge stack. Lower block recessed to left is contiguous with rear span; irregular fenestration including a round-headed window with radial glazing bars.

East front, on right return: lower 4-bay facade. In 2nd bay a 6-panel door and overlight with radial glazing bars, in architrave with cornice on fluted brackets.

Rear: a 5-bay facade in C18 ashlar.

Former cottage, now a garage, attached to rear has tumbled-in brickwork in the gable.

Interior has mid C18 open-well stair with turned balusters and panelled dado; 6-panel doors and shutters.

Benridge Hall south front

20/297 Forge Cottage also known as **Birney Hill Farmhouse**. Southern side of Stamfordham Road GV II

House. 1837. Ashlar with Welsh slate roof. 2 storeys, 3 bays. Central flush panelled door with 5-pane overlight. 12-pane sashes in alternating-block surrounds. Stone eaves. Gabled roof with flat coping. Corniced right end stack of 3 conjoined shafts. Rendered left end stack. Catslide roof to rear.

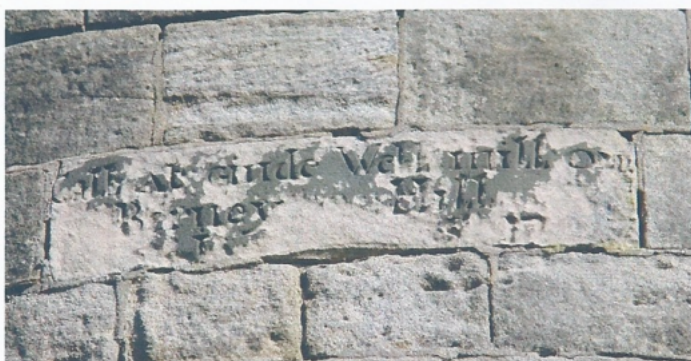

Dated on lintel of central 1st-floor window. *Previously known as Forge Cottage*

Dated 1837

NZ 16 NW PONTELAND DISSINGTON MARCH 20/298 WINDMILL approx. 20 yds N of Forge Cottage GV II

**WINDMILL C18.** Dressed stone. Roof not visible. Circular with tapering side: 3 storeys. Half-glazed door and several small square 4-pane windows. Disused and without its sails at time of survey.

Engraved on a central stone on the south side are the words GUIDE WELL 17 BIRNEY HILL 27

The sails for this windmill were long gone but it was still used as a residence until the 1950s.

NZ 17 SW      PONTELAND      DISSINGTON HALL

16/291 Dissington Hall 27 8 52      formerly listed as North Dissington Hall      GV      II\*

Country house. 1794 by William Newton for Edward Collingwood. Ashlar with Lakeland slate roof. Main block and 2 lower service wings to rear forming U-plan. 3 storeys, 7 bays with central 3-storey canted bay.

12-pane sash windows. Plinth, ground floor sill band, string above ground floor and dentil cornice. Blocking course probably added slightly later. Hipped roof with 2 tall stacks with modillion cornices.

5-bay returns with similar detail. Doorway on right return at junction with rear wing, in Greek-style porch of c.1820.

Wing on east side has 12-pane sashes; wing on west side a Venetian window with Diocletian window over. To rear a large Venetian stair window.

Interior: Staircase hall has screen of 2 Ionic columns in antis on ground floor, Corinthian columns on 1st floor; imperial stair with iron stick balusters; Adam-style Venetian window. Garden room (behind the bay window) is octagonal with frieze of triglyphs and metopes with achievements of arms; guttae panels in the cornice; grey marble fireplace with Ionic columns and a relief head in the frieze. Dining room has white marble fireplace with palmette frieze and detached terms, each with a lion emerging from acanthus leaves which in turn grow from a large, lion's foot; palmette frieze. Library has white marble fireplace, the frieze carved with cornucopia and Pheobus in his chariot, flower vases on the jambs. Good doors and doorcases throughout with fluted friezes, paterae, and cornices, original door furniture.

Architect's plans and drawings preserved in the house.

The Hall from South West

NZ 17 SW PONTELAND DISSINGTON 16/292 GV

Stable block attached to north of Dissington Hall II

Stable block, c.1794 extended and altered 1824 (date on rainwater head). Ashlar with Lakeland slate roof; brick left range.

2-storey central block forms inner courtyard with 2 single-storey ranges linking with service wings of house, and outer courtyard with 2 further ranges attached to north side.

Inner courtyard: centre block 3 bays with round-headed carriage arch in pedimented central bay; Venetian window over arch and clock in pediment; flanking half-slatted windows. Brick single-storey range to left, stone to right with boarded doors and 12-pane sashes; also one tripartite window.

Outer courtyard: centre block has irregular openings including 16-pane sashes and Yorkshire sashes; also 2 segmental arches with boarded double doors. Single storey 8-bay range to right has 2 boarded doors and 12-pane sashes. 2-storey carriage house to rear has 2 segmental arches

NZ 17 SW PONTELAND DISSINGTON

16/293 GV Terrace wall and railings to south of Dissington Hall II

Terrace retaining wall and railings. 1794 by William Newton. Ashlar and iron.

In front of the house a low wall with moulded coping flanked by railings which have 4 rails and newels with acanthus scrolls and palmette finials.

NZ 17 SW      PONTELAND      DISSINGTON

16/295

16/295 Dissington Bridge      II

Bridge. Mid C19. Rock-faced stone. Broad elliptical arch with rusticated voussoirs. Band at base of parapet. Parapet has ridged coping and square end piers with slightly pyramidal caps.

*Road over bridge from Medburn*

*View from West*

*View from East over the river Pont*

Bridge. Dated 1819. Ashlar. Single segmental arch framed by arch band. Rectangular, panelled end piers with shallow pyramidal caps. Parapet pierced in centre by 4 (Only 3 found) diamond-shaped panels.

Date in moulded panel on south side. (Not found)

Part of landscaped setting of Dissington Hall (q.v.).

NB Eachwick hamlet is in Stamfordham parish.

*View from bridge north to Dissington Hall*

*View along road eastwards*

*View from south*

Gingang. Early C19. Ashlar with Welsh slate roof. Circular with round piers, now filled with later brick. Conical roof. A good example of a local style.

2005

2005

2013

NZ 17 SE (2.4) PONTELAND **ELAND HALL** 17/301 27.8.52 GV II

House. Early C18 with earlier core; front altered early C19. Squared stone with Welsh slate roof. 2 storeys, 7 bays. In 5th bay a 6-panelled door with overlight in Tuscan entablature. 4-pane sashes with projecting sills. Steeply-pitched gabled roof with C18 kneelers. Banded end and ridge stacks.

Rear projecting cross-gabled stair wing on left has renewed 16-pane sashes and C18 kneelers. To right a stair and kitchen wing, parallel to front range, also has renewed 16-pane sashes and C18 kneelers.

Interior has 2 early C18 open-well staircases with thick turned balusters and moulded handrails. Staircase at east end of house has boldly wreathed handrail. Large C17 fireplace with stop-chamfered elliptical arch. 2- and 6-panelled doors, panelled shutters and reveals.

NZ 17 SE (23) PONTELAND **ELAND HALL** 17/302 28.4.69 GV II

#### **Garden wall and dovecote attached to east of Eland Hall**

Garden wall and dovecote. Early C18. Brick in English Garden Wall Bond, with random rubble to rear. Pantiled roof. Wall c.15 ft. high and 20 yards long links house with 2-storey square dovecote. Potting shed on ground floor. Segmental-arched opening on 1st floor, and pyramidal roof. Brick nesting boxes inside.

NZ 17 NW      PONTELAND      HIGHAM DYKES    11/30 Higham Dykes    27.8.52    GV    II

House. Late C17 extended late C18 or early C19. Brick in English Garden Wall Bond. Graduated Lakeland slate roof. Double-span main block with lower wing projecting to rear forming L-plan.

Front is in 2 sections. Main block: 2 storeys plus attics, 5 bays. 4 moulded steps up to 2-leaf half-glazed door in late C18 wood surround with attached Tuscan columns, dentil cornice and pediment. Long narrow windows in thin roll-moulded wood surrounds with projecting sills and wedge lintels. Ground floor has renewed 2-pane sashes, 12-pane sashes above. 1st floor string. Steeply-pitched roof with Flemish gables and 5 segment-headed dormers with 12-pane casements. End stacks.

East wing, recessed on right return, is contiguous with rear span and is in different and later brick. 3 windows. On ground floor small irregular later windows. Stone 1st floor sill band and 12-pane sashes in similar surrounds to main block, possibly re-used from rear. Gabled roof with early C19 Flemish gable on right. 3 dormers.

Rear facade is irregular. In the centre the original narrow stair projection with tall round-headed window, band and Flemish gable. Round this the rear span was built in several stages. It has 12-pane sashes to right and 16-pane sashes to left. Early C20 brick porch with shaped gable. Lower service wing to left is also of several builds. 3 C19 Flemish gables.

Interior: late C19 imitation C17 staircase. An Art Nouveau fireplace with 7 painted gesso figures representing the arts and abstract virtues. Several 2-panelled doors, including one impressive former external door in kitchen. Stout ceiling beams in kitchen.

NZ 17 NW    PONTELAND    HIGHAM DYKES    11/306    GVSundial approx 30 yds south of Higham Dykes

Grade II    Pedestal sundial. Dated EFF. Painted sandstone.

1728 Moulded base, then a corniced square block with fielded panels, the south side dated. Above, a tapering, square, fluted column. Small gnomon.

NZ 17 NW PONTELAND HIGHAM DYKES 11/304

Stable and carriage house attached to north-west of Higham Dykes II GV

Stable and carriage house. C18. Brick in English Garden Wall Bond. Stone slate and pantiled roof. Single storey, 6 bays. In the centre a 3-bay stable with boarded door and flanking casement windows. To left boarded double doors to carriage house. Similar opening to right later filled in, now has sash window with intermediate glazing bars removed. Steeply-pitched roof with pantiles over left bay, stone slate elsewhere. Obelisk finials to gables.

PONTELAND NZ 17 NW 11/305 28.4.69 GV HIGHAM DYKES

Summer House and garden wall west and south of Higham Dykes II

Summer house and garden wall. Graduated Lakeland slate roof.

Early C18. Brick in English Garden Wall Bond. Summer house: 2 storeys, 1 bay, square. Segment-headed doorway to potting shed on ground floor. Outside stone steps to panelled door on 1st floor. String course. Pyramidal roof with square stack rising from north-west corner. 1st floor has 12-pane sashes on the other sides. Garden wall: flat coping, originally c.9 ft. high; raised later in different brick with flat coping.

NZ 17 NW PONTELAND HIGHAM DYKES 11/307

Higham Dykes Farmhouse and attached shelter sheds II

House and attached shelter shed. C18. Rendered and painted with Welsh slate roof. Shelter shed dressed stone. 2 storeys, 2 broad bays with almost central boarded door. 16-pane sashes on ground floor. Smaller 6-pane sashes above. Steeply-pitched gabled roof, with tall rendered end stacks.

Single-storey farm building attached to left has 1 elliptical arch in gabled end. Boarded door and casement window on right return.

*Now called Smiths Cottage and converted to a house with the attached sheds on each side.*

Gateway approx 20 yards west of Callerton Hall

(IV II

Gateway. Early C19. Ashlar. Round corniced piers with domed caps. Quadrant walls with flat coping, ending in lower similar piers.

NZ 17 SE PONTELAND HIGH CALLERTON 17/310

Oriel House and Coach House GV II

2 houses, formerly the stable block and service wing of GaUerton hall (q.v.). Built by William Maughan C18, extensively remodelled 1892 by R. Norman Shaw. Rendered stone with some ashlar dressings. Lakeland slate roofs. L-plan. 2 storeys, irregular fenestration.

Garden front: projecting wing to left has broad elliptical carriage arch with keystone. In the re-entrant angle an oriel window with multi-moulded wood cornice. Main part has C20 sashes and casements on ground floor; above are two 6-pane sashes in half dormers with multi-moulded wood pediments. Cross-gabled right bay. Gabled and hipped roofs with banded, rendered stacks.

Entrance side: similar detail; also an early C18 Gibbs surround.

Rear of projecting wing (i.e. towards Callerton Hall) has large blocked elliptical carriage arch in raised ashlar surround with large coat of arms; three 12-pane sashes over. Gabled roof with C18 lead figure on the kneeler.

ORIEL HOUSE

COACH HOUSE

NZ 17 SE PONTELAND HIGH CALLERTON 17/311 Garden walls and gateways south of Oriel House and Coach House GV II

Garden walls and 2 gateways. 1892 by R. Norman Shaw. Random rubble with ashlar dressings. Iron gate. Walls around south and east sides of garden.

East wall starts with higher section containing round-headed doorway with small baluster colonettes in recesses in the middle of each jamb. Ramped down on right to lower section which has random rubble base, moulded coping and balustrade. Similar walling continues half way along south side to gateway with naturalistic wrought-iron gate, and then continues as solid wall.

NZ 17 SE PONTELAND HIGH CALLERTON 17/312 **Callerton House** 28.4.69 GV II

House. Dated 1724. Ashlar with Welsh slate roof. 2 storeys, 5 bays. Central 6-panelled door with overlight in dated raised surround. Oval panel above with initials I.F. Windows to right of door are stone crosses in raised surrounds. Windows to left of door have similar surrounds but have lost their crosses. They have 4-pane sashes. 1st floor band. Steeply-pitched gabled roof with flat coping, kneelers and end stacks.

SWI 1724

NZ 17 SE PONTELAND HIGH CALLERTON 17/313 **Newton Cottage** GV II

Cottage. C17 - early C18. Roughly-dressed stone with Welsh slate roof. 2 storeys, 3 windows. On ground floor, boarded door to left, inserted 8-pane casement in centre and 12-pane sash to right. On 1st floor a 9-pane sash and two 6-pane casements. Steeply-pitched roof. Additional section to left, formerly a farm building, has boarded door and two C20 half-dormers above. Walls 30-36 inches thick.

NZ 17 SE PONTELAND HIGH CALLERTON 17/314 **Rebellion House** 27 g 52 (formerly listed as Cromwell House) GV II

House. C16, altered early C17. Random rubble with walls 4 ft. thick. Welsh slate roof. 2 storeys, 3 irregular bays. C20 panelled door in C17 Tudor-arched surround with hoodmould. To left a small 2-light double-chamfered window with hoodmould. To right a similar C20 window. Small C20 window above. Gabled roof with renewed end stacks.

Original 1st-floor doorway, now a window, on left return; right of it a gun loop with internal splay.

South (garden) side has two C20 mullioned windows, also a ventilation slit. On first floor 3 small windows in old openings with old wood lintels.

Interior: on ground floor large C17 fireplace with finely moulded surround, the lintel supported on moulded corbels. Old beams.

On 1st floor: huge C16 fireplace with old wood lintel on very large, rough, rounded corbels; relieving arch over. Left of this the old wood lintel of the 1st-floor doorway, and the splayed gun loop. 2-bay upper-cruck roof with collar beams, saddles and double ridge pieces.

The house was probably a C16 bastlehouse with accommodation extended to the ground floor in the early-mid C17.

It has a traditional association with Cromwell who is said to have stayed here

REBELLION HOUSE a FORMER BASTLE

17C fireplace with moulded stone corbels

Cruck arrangement of roof beams

said to be Cromwell's rest place

NZ 17 NE

PONTELAND

KIRKLEY HALL 12/317 Kirkley Hall 27.8.52 GV II

Formerly a country house, now agricultural college. 1764 but largely rebuilt 1927 - 30 after a fire. For the Ogle family. Ashlar with graduated Lakeland roof

2 storeys: 5-bay centre with 1-bay projecting wings. 2 single-storey porches in re-entrant angles have paired Tuscan pilasters and, on returns, Tuscan columns in antis. Ground floor windows have round-arched grazing bars. 4 panesashes with shutters on 1st floor. Rainwater heads dated 1930. Moulded cornice, panelled parapet and hipped roog with 5 large cornice stacks. 7 bay pergola attached to front

To rear: porte-cochere with square Tuscan columns; entrance has segmental-arched doorway in bolection-moulded surround with keystone carved with Ogle crest. Flanking windows have re-used lintels: to left inscribed CO DO with Ogle shields; 16 32 to right JSO CHO also with shields. Rainwater heads dated 1764 for Newton Ogle.

NZ 17 NE PONTELAND KIRKLEY HALL 12/315 **Bank Head House** GV II

House. Mid C18. Brick in English Garden Wall Bond. Welsh slate roof. 2 storeys, 3 bays with C20 panelled door in small gabled wood porch. 4-pane sashes on ground floor, renewed 12-pane above. Flat arches. 1st floor brick string. Steeply-pitched roof with flat coping and tumbled-in brickwork in the gables. Corniced end stacks, the right one rendered.

NZ 17 NE PONTELAND KIRKLEY HALL

12/316 Farm buildings attached to west of Bank Head House GV II

Shelter sheds, byre and dovecote. Mid C18. Brick in English Garden Wall Bond with pantiled roofs. L-plan. To right, single-storey, 4-bay shelter shed with segmental brick arches, 3 now blocked. Projecting to left, first a single-storey, 3-bay byre; then a 2-storey Gothick dovecote with pointed-arched door, blocked pointed-arched window on 1st floor and castellated parapet, stepped up at corners.

NZ 17 NE

PONTELAND KIRKLEY HALL 12/318 28.4.69 GV **Stable block at Kirkley Hall II**

Stable block. 1764 for Newton Ogle. Rendered with ashlar plinth and archway. Graduated Lakeland slate roof. 1 : 3: 1 bays. Single-storey central section: central elliptical carriage arch with rusticated surround and pediment bearing arms of Ogle family. Flanking 12-pane sashes in architraves.

2-storey end pavilions. Right pavilion has 12-pane sash in architrave on ground floor and similar 6-pane sash above. Left pavilion has large early C19 tripartite window on ground floor; 6-pane sash above. Pavilions have pyramidal roofs. Above the centre bay a clock with Tuscan drum and lead dome. Soffit of archway has coffered plaster tunnel vault. On left return, early C19 conservatory. Single storey, 4 bays divided by Tuscan pilasters. Full-height windows with close-set vertical glazing bars.

NZ 17 NW PONTELAND KIRKLEY HALL 11/319 27.8.52 GV

**Obelisk approx 440 yards south-west of Kirkley Hall II**

Obelisk. 1788 by Newton Ogle. Ashlary Square base inscribed VINDICATA LIBERTAS PUBLICA MDCCCLXXXVIII NEWTON OGLE

Tall tapering shaft with pyramidal top. On south -side an oval panel carved, apparently, with a cap on a stick. Erected presumably on the centenary of the 1688 revolution.

NZ 17 NW PONTELAND KIRKLEY HALL

**12/320 South Lodge and gate piers 28.4.69 GV II**

Lodge and gatepiers. Early C19, 2nd storey added early C20. Ashlar with Lakeland slate roof. 2 storeys. Cantled 3-bay front. Central, pedimented Tuscan porch, formerly open, now with C20 glazing. Above, a moulded panel carved with the Ogle arms. 9-pane sash windows, with panelled aprons on ground floor. Cornice and corniced parapet. Hipped roof with corniced ridge stacks.

Corniced stone gatepiers. Bust of bull on right pier and deer on the left.

South Lodge with gate piers

Obelisk dated 1788

Gate piers at Lodge entrance    Deer

Bull on gate piers

The Cedar of Lebanon Tree that was centred on the internal quadrangle was cut down in  
Part of the trunk was carved into a seat and a new tree was planted.

27/321 **The Old Rectory** 27.8.52 GV II\* PONTELAND MAIN STREET

Former Rectory, now private house. Early C18, heightened in the late C18. For Merton College who were the lay rectors of Ponteland. Brick in English Garden Wall Bond with stone plinth. Welsh slate roof. 2 storeys plus attics. 7 bays, the left 2 bays added almost immediately after the rest.

2-leaf, 6 panel door with overlight and semicircular hood, in 5th bay. 12-pane sashes in shallow reveals with flat arches. 1st floor brick band. Gabled roof with flat coping, right end stack and 3 segment-headed dormer windows.

2-storey lean-to to rear has irregular openings with 12-pane sashes, Yorkshire sashes and 16-pane sashes.

Interior has late C18 stair with stick balusters. 2 early C18 panelled rooms (one in added 2-bay left section). Both have 2-panelled doors and wood cornices. One has fireplace with bolection-moulded surround and round-headed niche with shaped shelves.

Conservatory on west side

Capped well

NZ 1672 27/322 28.4.69 GV PONTELAND MAIN STREET

Gatepiers and garden wall to east of The Old Rectory II

Garden wall and gatepiers. Early C18. Brick in English Garden Wall Bond with ashlar piers.

Boldly corniced square gatepiers which have pyramidal caps with diamond-shaped finials.

Wall c.6 ft. high and 30 yards long

Rear view of Old Rectory

NZ 1672 "i-v 27/323 27.8.52 GV PONTELAND MAIN STREET (North side) Vicarage Tower II

Tower house. Said to be C14, but existing remains appear C16 or early C17. Random rubble patched with brick. 3 storeys, c.24 x 20 ft. in plan. On south side 3 large openings with C20 lintels.

On west side a blocked C16 door with chamfered surround; also a roof groove and holes for roof timbers of former adjoining wing. One chamfered jamb of the doorway into this wing also survives with harr post and drawbar slot. Blocked door on 1st floor has part of early-medieval grave cover with Celtic cross, used as jamb stone. Two C16 windows with chamfered surrounds. Roof groove of former attached wing.

A controlled ruin at time of survey.

Known to all locals as The Pele Tower

The Pele Tower reflects the seasons and the former verger's cottage is seen to the left rear

The magnificent beech tree has been felled

**PONTELAND MAIN STREET** (North side) Nos. 12 and 14 NZ 1672 27/324 28.4.69 GV II

**Farmhouse and hind's cottage**, now two houses. Late C18-early C19. Brick in English Garden Wall Bond. Welsh slate roof.

No. 12, on right, is higher. 2 storeys, 3 bays. 6-panel door in stone Tuscan surround with cornice. Renewed 15-pane top-hung casements in original openings with wedge lintels and projecting sills. Gabled roof with end stacks. Round-headed stair window, with intersecting glazing bars, to rear.

Rusticated segmental carriage arch adjoins to left and has original 16-pane casements to left and above.

No. 14 adjoins further to left. 2 storeys. C20 door with overlight and wedge lintel. Original 16-pane casement to left and another with segmental head on 1st floor. Gabled roof with end stacks on left.

Former farmhouse and cottage with carriage entrance

NZ 1672 27/325 PONTELAND MAIN STREET (South side) **The Seven Stars Public House** II

Public House. Early C19. Ashlar with pantile and stone slate roof. 3 storeys, 3 bays with 2-storey, 1-bay addition on left. A former coaching Inn on the turnpike from Newcastle to Elsdon and beyond.

1930's stone porch with 2-leaf door in architrave. Tripartite sashes on ground and 1st floors. 6-pane sashes on 2nd floor. Gabled roof with renewed brick end stack on left and old corniced brick stack on right. C20 rear additions not of special interest.

NZ 1672 27/326 PONTELAND MAIN STREET (South side) **Nos. 21 to 25 (odd)** OV II

Formerly houses, now shops. Early C19. Ashlar with pantiled roof and brick chimneys. 3 storeys, 4 bays. C20 shop fronts on ground floor. On 1st floor tripartite sashes in 1st, 2nd and 4th bays, 12-pane sash in 3rd bay. 6-pane sashes on 2nd floor. Wedge lintels and projecting sills. Gabled roof with flat coping and kneelers on right. End stacks renewed on right. C20 rear additions not of special interest

NZ 17 SW      PONTELAND      MEDBURN      16/358      **Garden walls at Dissington Old Hall**      GV      II

Walled garden. Early C17. Random rubble with some ashlar remnants of demolished house built into north-east corner. Doorway, on east side, with Tudor-arched lintel and multi-moulded surround. The east wall has steeply-ridged coping with roll-moulded top. The other walls have flat coping.

NZ 17 SW      PONTELAND      MEDBURN      16/359      **Old Dissington Farmhouse**      27.8.52      GV      II

Farmhouse, c.1840. Dressed stone with ashlar dressings. Welsh slate roof. 2 storeys, 3 bays. Rusticated quoins. Panelled door with overlight in raised alternating-block surround; cornice hood on stone brackets. 16-pane sashes in raised alternating-block surrounds. Gabled roof with flat copings and corniced end stacks.

24NZ 17 SW    PONTELAND    **MILBOURNE**    **16/327 High House Farmhouse**    GV    II

Farmhouse. Late C17, altered. Random rubble with boulder plinth and large quoins. Welsh slate roof and old brick chimneys. T-plan. 2 low storeys, 3 bays. Central boarded and battened door. 12-pane sashes on ground floor. Smaller casements above with old wood lintels. Steeply-pitched gabled roof with flat coping and C19 kneelers.

NZ 17 SW    PONTELAND    **MILBOURNE**    **16/328 High House Farm Cottage**    II    GV

House. C18, altered early C19. Dressed stone facade, random rubble elsewhere. Welsh slate roof with later C19 brick chimneys. 2 storeys, 3 bays. Old boarded, harr-hung door. 16-pane sashes on ground floor; 12-pane Yorkshire sashes above. Steeply-pitched roof with reverse-stepped gables. End stacks.

High House Farmhouse

High House Farm Cottage

NZ 17 NW      PONTELAND      MILBOURNE      11/329 Church of Holy Saviour      GV II

Church of England chapel of ease. 1868, dated on vestry, the gift of Miss Jane Anne Bates of Milbourne Hall. Ashlar with Lakeland slate roof. Mainly Geometric style. Porch-tower with spire, nave, chancel and vestry.

Porch-tower has pointed-arched doorway with gable over and niche with seated Christ. Clock stage above and 2nd floor bell stage; 2-light bell openings with waterleaf capitals and pierced quatrefoil over, in frame of dogtooth. Broach spire. On west side of tower a 2-storey round stair turret with pierced quatrefoils and conical stone roof.

3-bay nave has cusped lancets and string which rises over windows and continues on to chancel where it drops to form a sill string.

2-bay chancel has one 2-light Geometric window and one cusped lancet. 2 large offset buttresses. 3-light Geometric east window. Lean-to vestry on north side has datestone and initials of donor, also tall corniced chimney.

Gabled roof with flat coping and foliate cross finials.

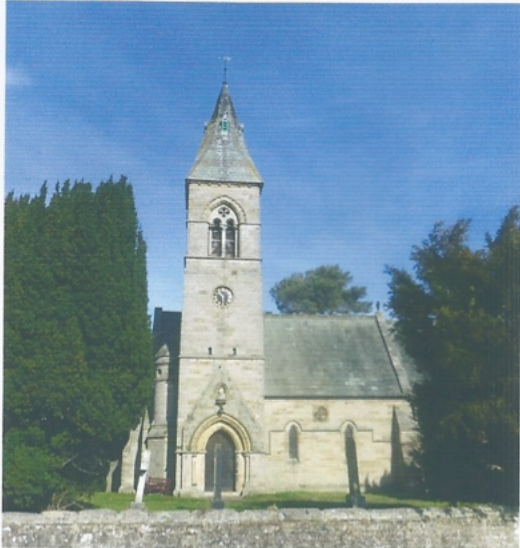

Interior: Panelled wood ceilings. Good contemporary, Gothic wood lectern, pulpit and choir stalls. Brass and wrought-iron altar rails. Reredos is a copy in stone of The Last Supper.

Tall twisted lamp standards, formerly for gas, attached to pew ends. Round font with crocketed base.

NZ 17 NW      PONTELAND      MILBOURNE 11/330      **Wall railings and gate, east of Church of Holy Saviour**  
GV II      Wall, railings and gate. 1868. Dressed stone with ashlar dressings, and iron.

Square gate piers, with octagonal upper stages and pyramidal caps, flanked by wall of alternate lower and higher sections, chamfered coping. Lower sections have railings whose bars have alternate wavy and fleurs de lys finials. Similar gate.

*View from south*

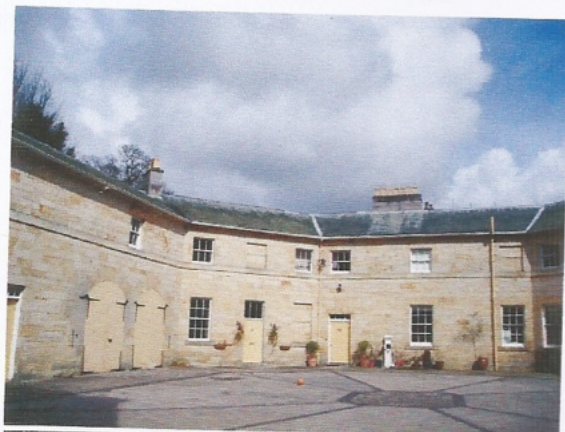

*View from east*

*Gate piers and railings*

Country house with attached stable court. 1801 by John Patterson. Ashlar with graduated Lakeland slate roof. Unified plan. Octagonal stable court with west gate tower; linking range to rectangular main block with canted bays on three sides and canted rear angles. Entrance front has 2-storey, 3-bay linking range in centre. Open porch of paired Roman Doric columns. Tripartite doorway with segmental fanlight and radial glazing bars. 12-pane sashes on ground floor, 6-pane above. Plinth, sill strings and panelled 1st floor band. Moulded eaves cornice. Higher main block to right has 12-pane sashes on both floors. Similar detail. West front, i.e. above roof of linking range is pedimented. Stable block to left also has similar detail. Shallow-pitched hipped roofs. Tall entrance tower on west side over round-headed pedimented carriage arch; slightly-recessed upper stage has angle pilasters, cornice > blocking course and lead dome. Interior: Hall has 2 fireplaces - one, wood of c.1750, Rococo style; the other white marble of c.1800. Oval anteroom with domed roof light leads to full-height rotunda with 1st-floor iron balustrade and dome with roof light; curved scagliola fireplace and seven doors in curved entablatures. Drawing room has one shallow curved wall. Deep classical frieze and multi-moulded cornice; carved wood fireplace. Circular domed lobby leads to octagonal library with built-in shelves and white marble fireplace with Ionic columns and classical scene. Oval staircase hall has iron stick balusters to cantilevered spiral stair, and domed ceiling with roof light. Several other oval and semi-oval rooms. Good friezes, cornices, doors, fireplaces and shutters throughout.

PONTELAND MILBOURNE

**Pigsty** approx 20 yards north of Milbourne Hall II

Early C19. Ashlar and graduated Lakeland slate roof. Single storey, Low with hipped roof and exercise yards in front with arched coping.

PONTELAND

Formerly a manor house, now an inn. Medieval tower, altered and house added mid C17 for Mark Errington. Restored early- C20. Tower large random rubble with stone slate roof. Attached house roughly-dressed stone and Welsh slate roof. Old brick chimneys.

Tower, on left, has large projecting chimney to left with stone base rising to 2 tall brick shafts. To right a projecting 3-storey gabled frontispiece, blank on ground floor and oversailing above on 2 large rounded corbels. Two 2-light double-chamfered mullioned windows above, with strings rising to form hoodmoulds. Gabled roof with kneelers.

Between these projections a C20 door and, on 1st floor a 2-light window with hoodmould and panel above inscribed M:E: for Mark Errington.

3-bay attached house to right has central gabled porch with round-headed door in architrave. Stone slate roof. M.E. inscribed on lintel of original Tudor-arched doorway within. Flanking canted bay windows and 2-light windows above have double-chamfered surrounds. This detail is now all C19.

On left return 4-light mullioned windows with hoodmoulds on ground and first floors. 2-light window above.

Interior of tower has tunnel-vaulted ground floor and a large C17 fireplace; the lintel carved with crenellations.

GV I

Parish church. C12 - C15. Restored 1810, 1851 by Wardle, 1861 by F.R. Wilson and again in 1881. Squared sandstone and Welsh slate roof. West tower, nave, with aisles and porch, transepts and chancel.

Tower: C12. West door with one order of columns and chevron moulding in the arch. 2 small original windows above. Several other C12 windows on returns also several C14 cusped windows. Bell stage added C14.

Nave and aisles. 3 bays. Vestiges of C12 masonry; extended C13 (see masonry at west end) and again in C15. South aisle has two 3-light segmental-headed Perpendicular windows. South porch C13, reset; slightly-pointed doorway; pointed tunnel vault inside with 3 chamfered transverse ribs. North aisle rebuilt 1810 using old masonry. Low parapets and shallow-pitched roofs.

Transepts: South transept rebuilt late C15 with Perpendicular east window. North transept C13, the gable rebuilt in C19; 3 tall lancets on north and east sides.

Chancel: Long C13 chancel with chamfered sill string rising to form hood mould over segmental priest's door. 2 original lancets on north side, C14 Decorated windows elsewhere.

Interior: C15 south arcade with octagonal piers and double-chamfered arches dying into imposts. Similar north arcade of 1810. C13 chancel arch has re-cut corbels of Adam and Eve, before the fall on the south, after the fall on the north. North transept north windows have shouldered rere-lintels; the east windows have shouldered rere-arches. C14 glass fragments in chancel window heads. Trefoiled piscina in frame of dogtooth.

Many wall monuments, including:- Richard Newton Ogle, 1794 by Coade; John Dixon, 1716 - extremely rustic; Anne Byne, mother, and Anne Byne, daughter 1769 and no date, with interesting inscriptions.

1795 to James Charlton aged 24. Sandstone tablet with scrolled pedimented top holding shell. Moulded surround. Relief carving of urn and symbols of death.

Charlton headstone

III-Headstone.

Inscribed:

Our life tho' short is mix'd with much  
alloy. Death blasts a father's hope, a  
mother's joy. Their fondest prospects  
quickly does destroy.

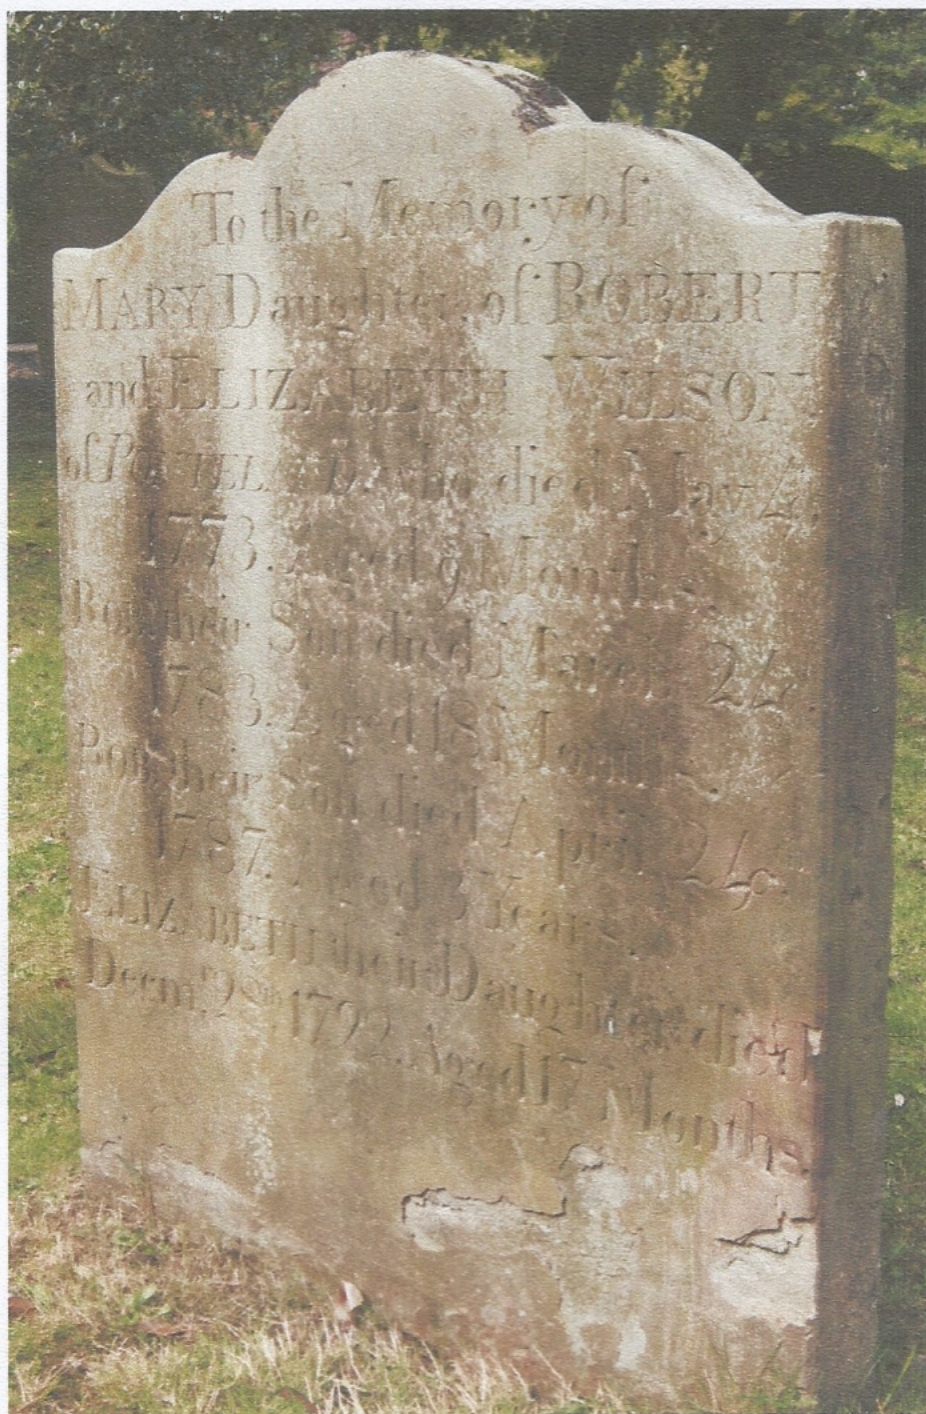

From us, alas, our darling youth is torn  
This may excuse our weakness when  
we mourn. Ours is the loss, the gain is  
all his own.

Interesting Grave stone which includes JOHN LUMSDON who died Nov 14th 1804 Aged 100 Years.

Gravestone due South with names of children who died in infancy

Cottage homes for children. 1903 by Leeson for the Newcastle Board of Guardians. Now Police Headquarters & college. Cavity walls in stretcher bond brick; partly pebble dashed and painted. Welsh slate roofs. Two pairs of semi-detached houses in Domestic Revival style.

**Block 1-2:** Consciously asymmetrical facade with one gable to left and 2 to right. 2 storeys, 6 bays. Half-glazed doors in 2nd and 5th bays. Ipswich windows in outer bays, those on 1st floor in half-dormers with semicircular pediments. Half-timbered gables with bargeboards. Hipped roof with 3 boarded ridge stacks.

**Block 3-4:** also asymmetric 6-bay facade with similar doors. 2-storey, 5-sided bay window under pedimented gable in 4th bay. Hipped roof with half-hipped transverse roofs over outer bays. 3 corniced stacks.

A good example of buildings for the enlightened approach to child care in the early C20.

**Block 5-6.** Consciously asymmetrical facade. 2 storeys, 6 bays. No. 5 has door with cornice and 2-light window above under gable; canted bay window to left. No. 6 has door with segmental head and canted bay window over; bay window to right. Hipped roof with 4 gables of varying sizes; and over right bay a large Flemish gable. 3 corniced stacks. Recent extension to right is not of special interest

**Block 7-8:** almost symmetrical; only the doors break the symmetry. Door to No. 7 is in a 2-storey porch while door to No. 8 has a canted oriel over. Single-storey bay windows in outer bays. 2- and 3-light windows in moulded wood frames. Bargeboarded cross gables over outer bays and similar smaller gables over centre bays. Hipped roof with 3 corniced stacks.

Cavity walls in stretcher-bond brick, partly pebble dashed and painted. Welsh slate roofs. Two pairs of semi-detached houses in Domestic Revival style. Consciously asymmetrical

**Block 9-10:** 2 storeys, 6 bays. Doorway to No. 9 has cornice over. No. 10 has semicircular hood. No. 9 has a canted bay window; No. 10 a bay window. 2- and 3-light windows in moulded wood surrounds. Cross gables over 1st and 3rd bays; bay 4 has gabled half-dormer; bays 5 and 6 under one large cross gable. Hipped roof with 3 brick-corniced stacks.

**Block 11-12:** 9 bays. Doorways with semicircular hoods on brackets; No. 11 has a large bay window over; No. 12 has a round-headed window. Centre 2 bays have tripartite windows in moulded wood surrounds; semicircular pediments over 1st floor windows. To left, 3 bays with 12-pane sashes and 1st floor dentilled string. To right canted bay window. Over centre bays 2 Flemish gables. Roof hipped on left with octagonal lateral shaft; gabled on right with end stack.

**Superintendent's House of cottage homes for children.** 1903 by Leeson for the Newcastle Board of Guardians. Now Police Headquarters and college.

Cavity wall in stretcher bond; pebbledashed and painted on 1st floor. Welsh slate roof. House with linking range of offices and water tower attached to rear. Domestic Revival style.

House: 2 storeys plus attics, 3 bays with single-storey 1-bay side wings. Central 2-leaf, 6-panel door, and fanlight with radiating glazing bars under semicircular hood. Canted 5-sided bay windows on ground floor with 12- and 8-pane sashes. 12-pane sashes above. Dentil cornice. High hipped roof with 2 hipped dormers and tall corniced lateral stacks. Single-storey wings have 12-pane sashes; canted bay windows on returns.

Single-storey 6-bay linking range to rear has 12-pane sashes.

Tall, square water tower with cornice, large stone water spouts at corners and tall parapet with scalloped top.

A good example of buildings for the enlightened approach to child care in the early C20.

NZ 17 SE PONTELAND NORTHUMBRIA POLICE H.Q. 17/348 Block 27 GV II.

**Workshops for cottage homes.** 1903 for the Newcastle Board of Guardians. Now Police workshops. Cavity walls with stretcher bond brick. Welsh slate roof. 3 ranges forming U-plan. Single-storey, 5x3 bays. 2-light windows in moulded wood surrounds. 12-pane sash in each light. Hipped roof with 2 corniced stacks. 2 boarded doors, and boarded double doors to rear.

Included for group value and historical interest as a survival of industrial training for boys in care.

Water tower in garden of Pine Dene (formerly listed as Windmill in grounds of Pine Dene)

Water tower; at time of survey being converted into house. Early C20. Brick in stretcher bond. Bituminous tile roof. Built in form of windmill. Round, 5 storeys with strongly tapering profile. Small 4-pane segmental-headed windows. Wood balcony at 1st floor level. Domed roof.

February 2014.

Tower now derelict. Windows missing, plaster or render falling off. Present owners have lived in adjoining house for twelve years.

NZ 1/SJS      PONTELAND      PRESTWICK 17/350      / **Prestwick Hall**      GV      II\*

House. 1815 by John Dobson. Tooled-and-margined ashlar with plinth. Scottish slate roof. Greek Revival style. Square with lower 2-storey service wing projecting to rear on left return and conservatory projecting to rear on right. 2 storeys, 3 bays. 8 swept steps with side railings which are wreathed around ashlar piers. 2-leaf, half-glazed door in recessed porch with Doric antae and cornice. 12-pane margined sashes with moulded sills on ground floor. 1st floor sill band and 6-pane margined sashes. Cornice and blocking course. Hipped roof with 2 large ridge stacks.

To rear: doorway into service wing has pedimented Doric entablature. Large 24-pane margined sash stair window.

Interior: Entrance hall; screen of 2 Doric columns. Cast iron balusters said to have been brought from elsewhere. Plain stone door surrounds framed by incised line ending Greek key patterns. Coffered ceiling with triglyph frieze.

Dining room: Ornate plaster ceiling with wreaths of vines and ivy; multi-moulded frieze and cornice. White marble fireplace with round arch and keystone carved with vines; vines in the spandrels also. 2 doorcases (one framing a niche) with fluted pilasters, elaborate brackets, palmette friezes and enriched cornices. This niche and the larger serving niche have elaborate Rococo-style built-in tables. The serving niche has fluted surround and large built-in mirror in frame of palmettes, gilded pelmet.

Sitting room has similar elaborate ceiling. Wood fireplace with frieze of scrolls and shells.

Study has stone fireplace with colonettes and square dentil capitals; pedimented lintel with acroteria; coat of arms in the pediment and foliage in the acroteria.
